

Anastasiya Golubeva

Quality Assurance Engineer

✉ marjorine13@gmail.com 📠 Telegram: @msmarjorine 📍 Brest | Belarus

Intro

An inquisitive software tester with a keen eye for detail, curious about learning new technologies and applying the acquired knowledge in practice. I have hands-on experience working in Agile teams and contributing to product quality from requirements clarification to regression testing after release.

Interested in transition to the role of QA Automation Engineer in the future (JavaScript, Cypress).

Work Experience

QA Engineer

Sep 2020 - Present

iTechArt Group

Functional and non-functional testing of web applications

- Industries: FinTech, Digital Marketing
